# A BITTER FIGHT AHEAD.

DEMOCRATIC FACTIONS IN THIS STATE IN HOSTILE ARRAY.

BOTH SIDES PREPARING FOR THE COMING FALL , CAMPAIGN.

FROM THE REGULAR CORRESPONDENT OF THE TRIBUNE. paign. within a year past by the removal of his eyes which he suffered list week of Troy, as United States Senator. Sir. Hin's holder, Side of Long Island. The fish bit ravenously, and one big fellow made a jump for the fly on Dr. Paxton's hook. The Doctor was so eager to capture the fish that he manipulated the line in such a way that the head flow hook for back for ba cratic United States Senators are thus within "hallting distance" of each other, and can hold a political eye. The wound was painful and dangerous. A aference at any time within half an hour.

Still another chieftain of the Democratic party. and he cordially welcomes at all times beha-Hill and Murphy to the Executive Mansion or e his private apartments in the Capitol. Lieutenant-Governor Sheehan also is able by taking a train as late as 1:15 p. m. any day in Buffalo, to be in Albany in the evening, and to be present at any con-ference with Mr. Hill, Mr. Murphy and Mr. Flower.

These leaders of the Arti-Administration wing of the Democratic party in this State are now wordering whether or not there will be two Democratic State tickets presented to the voters the coming fall, and whether, also, this "split" in the Democratic party will be extended into the election of members of the Legislature and of the Constitutional Convention. The State ticket will be an important one, since there must be elected a successor to Judge Maynard, of the Court of Appeals, and successors to Secretary of State Rice, Controller Campbell, Attorney-General Rosendale, State Treasurer Danforth and State Faand a full Senate and Assembly.

do the control of the executive and legislative branch Mr. Warren, the organist of trace of the State Government, would like to continue in but they are open eyed enough to perceive that the Cleveland Democrats are hard at work preparing to contest that control with them. Presient Cleveland's action in withholding Federal appointments from them, they interpret, and no doubt eightly, as an evidence of hostility.

The political policy of the National Administration in New-York State is that of a slow distribution of the offices, in the belief that the hope of receiving The Rev. Dr. office will draw many Democrats from the standard of the "Albany Regency." The members of the "Regency" perceive this policy and have been attempting to defeat it by putting the means in Tamly Hall's power, by passing laws authorizing big appropriations, to distribute a large amount of patronin the rural countles of the State, where the Cleveland Democrats are strong

The recent action of Lieutenant-Governor Sheehan in depriving Mayor Eishop, of Buffalo, of his power to appoint the Police Commissioners of that city is ered by the Cleveland Democrats as a direct attack upon them. Mr. hishop is a Cleveland Demo-crat, and attended the Anti-Snapper Democratic State Convention at Syracuse. But Mr. Sheehan gets conof the Police Department of Buffalo, and undoubtedly purposes to use the police at the polis at the next election to keep down both the Republican vote and the vote of the Cleveland Democrats, in case they run a separate State ticket, and separate candidates for the Legislature.

The Cleveland Democrats of Buffalo have started a "home-rule" movement which may sweep through the State. All the Cleveland leaders see that, if a Demo-cratic Legislature is elected this fall as subservient o Governor Flower and Lieutenant-Governor Sheehan which has just adjourned was, they will be crushed. It was one of Lieutenant-Governor Sheehan's crushed. It was one of Lieutenant-trovernor sheenan's schemes, for instance, to have the Board of Police of Buffalo appoint the election inspectors, and, imitating the Tammany Hall plan, to give the Republican party only one inspector and the Sheehan Democrats two. This is a plan which will be followed the coming year

also have plans to seize the election inspectors of Rochester, a Republican city, in the same manner. In every city in the State, if possible, the "Regency" litteal conditions in the c will seek to gain control of the election inspectors These men count the ballots. They can "count out" the Republican party or the Cleveland Democrats, if they ever win a State election or a Legislative ele-

they ever win a State election or a Legislative election.

Having gained power by fraud, the "counting in" of a State Legislature, the "Albany Regency" would perpetuate its power in the same manner.

The "Regency" of course intends to rominate Isaac H. Maynard, who stole the election returns of Dutchess County and thereby enabled the Democratic State Board of Canvassers to count in a Democratic Legislature, for Associate Judge of the Court of Appeals, lature, for Associate Judge of the Court of Appeals, lature, for Associate Judge of the Court of Appeals. Frank Rice, Secretary of State, and a member of the State Board of Canvassers which counted in the Democratic Legislature by canvassing the Mylod certificate from Dutchess County, which had been declificate from Dutchess County, which had been declared invalid by the Court of Appeals, retires from office. The "Regency" thinks of nominating George B. McClellan, now president of the Board of Aldermen of New York, for the place.

The "Regency" will renominate Controller Campbell, Attorney-General Rosendale and State Engineer Schenck, who are now serving their first terms and are entitled to a renomination. Mr. Schenck removed General Masterson from his post as chief clerk because he was a Cleveland man. State Treasurer Danforth, also a member of the State Board of Canvassers who counted in a Democratic Legislature in 1891, will retire, as he is now serving his second term. Ex-Mayor William B. Kink, of Syncuse, is seeking the nomination Democrats may seek to influence.

term. Ex-Mayor William B. Killa, of State Treassealing the nomination for the place of State Treasurer.

The Administration Democrats may seek to influence the Democratic State Convention, but their leadence the Democratic State Convention. Tammany Paul will have ninety delegates out of 384, and the Regency will easily be able to gain enough votes beyond Tammany Hall's able to gain a majority in the convention. All Democrate politics in the State of New-York now turn upon the action of the State of New-York now turn upon the action of the Governor. He dispenses more patronage a thousandfold than is at the command of President Cleveland. Richard Croker and Hugh Mc-Parallel and the State of the Convention in its interest. He was a state of the organization of the Democratic party there are thousands of untrammelled voters. It is to them that the Cleveland Democrats must appeal, and the contest be at the ballot-box and not in the Democratic primaries. There have been "Hunker Democratis" and "War Democratis" in the history of the party; there now promise to be "Horae-Rule Democratis" and "Regency Democrats."

SUDDEN DEPARTURE OF A MT. VERNON EDITOR.

William K. Jones, editor of the Eastchester Citicompany with his wife and child. His departure was unexpected, and a number of creditors were much surprised when they heard that Mr. Jones had abandoned his newspaper plant, which is heavily mortgaged. About ten days ago the house in which h lived with his family was destroyed by fire. Friday last he received \$1,000 on account of an insurance policy. Jones is a young man, and had been connected with several Mt. Vernon newspapers for the last three years.

He will have to take special care of his eyesight for some time.

### CHANGES IN THE GRACE CHURCH CHOIR.

A NEW QUARTET ENGAGED-MORE MONEY TO BE SPENT FOR MUSIC.

An important change will be made next Sunday in the choir of Grace Protestant Episcopal Church, in Broadway, near Teeth-st. The members of the well-known quartet choir, George Simpson, the veteran tenor, who has occupied his place for many years; Dr. Carl Martin, the bass soloist; Miss Ida Hubbell, seprane, and Ada Foresman, contralte, have thirty-two delegates at large and four delegates from each Senate District to the Constitutional Convention, found new places. Dr. Martin will be soloist in St. has been engaged as soprano in the Emmanuel Bap-tist Church, Brooklyn, and Miss Foresman will be a member of the quartet of the Collegiate Reformed

Mr. Warren, the organist of Grace Church, said to a Tribune reporter yesterday afternoon. "My new quartet, which will enter upon its duties next sunday morning, will consist of Mrs. W. W. Scott, soprano; Miss Watson, contralto; Mr. Auty, the well known tenor, of Philadelphia, and George W. Ferguson, bass. The church can ill afford to lose the services of Dr. Martin, but he has secured an excellent position and asked to be released. Mr. Simpson will retire from

The Rev. Dr. Huntington, the rector, was out of town yesterday. His assistant, the Rev. H. W. Wells, said. "There is an impression prevalent that the change in the choir was made in accordance with Dr. Huntington's wishes. The fact is, that the ves-try, in response to the strongly expressed desire of a majority of the pewholders, decided to secure a new ago Dr. Huntington sent a letter to each pewholder asking for a vote on a number of suggested choirs, inasking for a vote on a number of suggested choits, in-cluding the present form of quartet and chorus, a double quartet and a surpliced choir of men and boys. The result of the vote was favorable to a quar-tet and chorus choir. A considerable number of the members of the church waited surpliced singers, and a smaller number were in favor of a double quartet. The vestry has not made the change from any consid-erations of economy, but, on the centrary, has de-cided to devote more money than ever to the musical part of the service of the chutch."

# FLAMES IN A TENEMENT-HOUSE.

AN INVALID SEVERELY BURNED-THIEVES IN THE HOUSE.

The tenants in the five-story brick building No 61 East One-hundred and sixteenth-st. were frightened by a fire yesterday afternoon which partly destroyed their homes. Nearly forty people were in the building when Thomas Nixon and his wife, who live on the second floor, saw a puff of smoke which seemed to burst from the elevator shaft in the rear of their rooms. Running back into their kitchen they saw that the draperies around the window had caught are from a burning gas jet. Before they had time to give an alarm the flames had run up through the light shaft in the rear of the rooms, and in less than two nemites had possession of the top floor occupied by Mrs. Reichart and her relative, F. Leporan. Two alarms were sent out, but before the fire could be brought under control the building and much of the furniture in the house had been badly damaged.

All the tenants escaped with comparatively little difficulty, though Leporan, who is an invalid, was hadly burned about the face and hands in fighting his cay out of the burning rooms. After the flames and moke were under control, Mrs. Reichart, going back to her rooms, missed a handsome diamond bracelet valued at \$500. Mrs. Weigel, who lived on the first floor, lost a jewel box, containing a gold watch, three rings and other trinkets, valued at \$300. It is believed that theyes made their way into the house during the excitement attendant on the first alarm, and managed to steal the property. The total loss to the farniture and the building will reach \$7,000.

A WOMAN UNCONSCIOUS FOR SEVENTEEN DAYS AT THE GRANGE MEMORIAL HOSPITAL.

The case of Miss Mary McCann, the young woma who fell or jumped from a South Orange, N. J., electric car, on the afternoon of April 13, and who has been in an unconscious condition ever since at the Orange Memorial Hospital, is attracting wide spread attention among the medical fraternity. The physical condition of the patient is good, and she is able to take nourishment naturally, but her mental faculties are a blank. She sleeps at night peacefully, and it is only in her waking hours that her complete unconsciousness of her surroundings is shown. as now been in the hospital seventeen days, and her condition has not changed during that time.

Dr. Thomas W. Harvey, her attendant physician. has the theory that a clot of blood, formed by the breaking of a blood vessel in the brain by the shock of her fall, is the cause of her condition. He thinks that this may be gradually absorbed and the patient recover her senses. In this case the recovery would be a slow and gradual one. He admits that nothing can be definitely known on the subject.

Every day that the patient lives in her present good physical condition strengthens the hope among the hospital staff that she will recover.

### THE RED FLAG TO FLY IN BROOKLYN.

The Central Labor Federation of Brooklyn will make a public demonstration this evening at Fort Greens, on which occasion the red flog will supplant the Stars and Stripes. The Central Labor Union has refused to join in the demonstration because the American flag will not be exhibited. The demonstration, nominally, is in support of the eight-hour law. The members of the Federation will meet at the Labor Lyceum in the Eastern District, and, with bands of music and red flags, will parade through Myrtle ave. to Fort Greene, where a number of speeches will be made by Socialists.

A new thing in parades will be seen this after noon. The striking walters have decided to make a demonstration. Being out of work they contend that it would be wise to advertise the fact by parading nen, for a "grand demonstration" at 2 o'clock this afternoon. The striking watters and a number of sympathizing fellow-waiters will start from their head quarters, at Sixth ave. and Twenty fifth-t., at 2 o'clock. From there they will march to Broadway, up to Forty-second-st., to Fifth-ave., to Twenty fifthand back to their headquarters. There will be music and flags and banners and all the other accessories of a parade. The waiters will march in companies of twenty men each, and will be led by one of the waiters who struck in Delmonico's. There were no strikes of waiters yesterday.

### LOTS OF BASEBALL NOW.

GIANTS SEEM TO BE IN GOOD SHAPE.

TO OPEN THE CHAMPIONSHIP SEASON IN BROOK-LYN-OTHER CLUBS.

There will be plenty of baseball hereabout this week, happy. The New-York team will be at home three days. and as soon as the Giants go on the road the Bridegroo will start the bail rolling in Brooklyn. The opening championiship game at Eastern Park, Brooklyn, will be played on Thursday between the Brooklyn and Philadelphia teams, and the followers of the game across the Bridge will try to make the opening an even more ausptatious one than the Giants enjoyed at the Polo Grounds on Friday.

While the Bridgerooms may have the satisfaction of winning their opening game, they can harrly eclipse New York in point of attendance and enthusiasm. Still, such York in point of attendance and entusiasm. Still, seek a thing is possible, for baseball records are being knocked out of sight all over the country this year, at even this early stage of the game. Invitations have been extended to the leaders in the business, social and political world in Brooklyn, and there will be the usual musical programme, with decorations, flags and festive bunting.

The emphatic victory of the Glants over their formidable Boston rivals on Saturday furnished a sweet

mersel of comfort for the local followers of the game to roll under their tengue. Seldom in recent years have the champions, and it has been a long time indeed since the Giants have won such a decisive victory as that of Sabriday. That the victory was won against Stivetts. Boston's champion pitcher, was the more agreeable. Such terrile batting plused the crowd, and seems to show that the club owners knew what they were about when they changed the playing rules and placed certain restrictions upon the pitcher. Some idea of the batting can be had when it is known that two of, Boston's infielders, Tucker and Nash, were knocked over by speedy ground hits in one inning, and that Carroll was stargered and almost knocked over by a drive which Rusle made to left field. Ward, Davis and Tierman, however, did not play so well in the field as they might have done. There was one hit to right field which Tierman ought to have equipht, and one dropped just back of second nese which Ward ought to have caught. Davis's cross diamond throwing was erratic, but he will do better with more practice.

The Fastern League championship season will begin

to-morrow and the interest all along the circuit is such to-day. He has just completed his list of unpires, and they are likely to give satisfaction. Three of the men are old-time ball players.

St. Louis. April 30.—The nard rain of the night previous left the ground in poor condition to-day. Fielding was difficult and the pitchers had little or no control over the hall. A WORLD'S RECORD BROKEN AT YALE. New Haven, Conn., April 30 (Special).-Every effort

will be made by the Yale Truck Athletic Association to secure the official adoption by the Amateur Athto secure the official adoption by the Amateur Athletic Union of the new necord made by W. O. Hickok, of Harrisburg, yesterday in the spring games. The tape has been carefully preserved, and will be taken to New-York at once by the Yale Association, along with the measurers, who will go through the customary form of attestation to sub-stantiate the new world's record. There is no doubt that it will stand, as the Yale Association, bearing in mind the work done in practise by Mr. Hickok, had appointed thoroughly trustworthy measmeron, and appointed thoroughly trustworthy measurers. The actual distance made by Hickok was 112 feet 9 inches, brenking the record held by Mitchell, of the New-York Athletic Club, of 110 feet 2 inches, This, it must be inderstood, is the record made in a standing infrow, the running record also being held by Mitchell.

On second floor may be found an exhibition of SOLID SILVER-WARE which, in the attention given to beauty of form and appropriateness of ornamentation, is distinctively different from any other stock to be seen in New York. ### BUILT TO SAVE THE CUP. THE NEW BOAT OF THE ROGERS SYNDICATE TO

BE CALLED THE COLONIA-HER OUTLINES. Boston, April 30 (Special).-The Colonia will be the name of the Rogers syndicate cup-defender. Mr. Rogers thinks this is appropriate in a Columbus year, and, besides that, it contains the lucky seven letmuch coveted by yachtsmen. The dimensions of the two big cup-defenders being built at Bristol have not been officially stated, but it is known that they are closely modelled on the lines of the Navahoe. W. E. Robinson says that all three boats bear the unmistakable Herresboff imprint in the long overhangs, the straight side above water, the easy bilge, the cutting away rather full water lines forward, though neither of the three is as full forward as was last year's champion 40 footer. As is already known, the Rogers syndicate boat is an enlarged and improved Wasp, but this by no means tells all the story. much more powerful than the Navahoe, and will carry a larger rig than even the big one which Mr. Carroll's flyer swings aloft. She is the longest and deepest keel single-sticker ever built in this country, and she has in her model the latest ideas of her designer in that type of boat. In over-all length

designer in that type of boat. In over-all length sie is not far from the Navahoe, or 123 feet. Her waterline length is 85 feet, her beam 24 feet and her draught close to 16 feet, or one foot more on the waterline, a foot more beam and 3 1-2 feet more draught than Mr. Carroll's boat. In model she is very much like that boat also, except that she has somewhat less dead rise and a narrower keel. The load water-line forward is by no means as full as on the Wasp, and, in fact, there seems to have been a sharpening of the whole bow with the evident linent of doing away with the "spanking" in a seaway for which the Wasp was noted. The water-line aft shows considerable fulness, and there must be a material gain in power aft when the boat heels, as there undoubtedly was in the Wasp and Gloriana, The boat will have a lorg floor to sail on, and should be very fast down the wind.

In construction the Rogers beat is of steel throughout, but, unlike any other steel boat ever built, she will carry her lead keel is blotd outside her steel keel, in much the same way as if she were of wood construction with an oak keel. The lead keel is about two feet deep. As to the sail play intended for the boat, it suffices now to sey that it will be materially larger than the Navahoe's.

YALE AND HARVARD UNABLE TO AGREE. THE FORMER DECLINES TO PLAY A THIRD AND FINAL GAME ON NEUTRAL GROUNDS.

New-Haven, April 30 (Special) .- All present indications point to a repetition of the unsatisfactory result of the attempt last season of the managers of the Yale and Harvard baseball nines to play a series of three games. Two have already been agreed upon, one at Cambridge, on Two have already been agreed upon, one at Cambridge, on June 22, and the other at New-Haven, on June 27. Harvard wanted the third to come off on neutral grounds on the Saturday following the other two, but Yale, as last year, declined. The Yale management gave Harvard till May I to answer the Yale proposition of playing the game on neutral grounds before the other two. Harvard has been thinking it over, and has evidently resolved to have the Yale Harvard sories this very as last, consist of but been thinking it over, and has evidently reselved to have
the Yale-Harvard series this year, as last, consist of but
two games; no third contest in case of a tie being
possible. Manager Swayne, of the Yale nine has received no letter from the Harvard management, and, as
the time has expired, it seems as if no settlement of the
question of the supremacy of the two terms were possible.

The managers of the Yale team were seen to-night
and asked when the outcome of the matter would be.

The answer was that Yale would not play Harverd unless the plan of playing the same on neutral grounds first were acceded to. Harvard will receive one more day of grace to get an answer here, but the Yale management has given up all hope of hearing favorably from Cambridge, and consequently the two games arranged with Harvard are the only ones that will be played.
